TECHNICAL DATA SHEET

RP EnviroCote Membrane Low Sheen

Product name	RP EnviroCote Membrane Low Sheen				
Product code	• 40505				
Pack size	• 18L				
	• 5L				
Description	nviroCote Membrane Low Sheen is a high build, high performance protective coating that is a highly flexible acrylic membrane. It is a water resistant product ideally suited to pplications that require a superior level of protection, such as high rise buildings ommercial buildings and areas of high coastal exposure.				
Features	Water based				
	Excellent flexibility				
	Very high water resistance				
	Vapour permeable				
	Easy to maintain				
Benefits	Excellent colour retention				
	Long term exterior protection				
	Mould resistant				
	Scuff resistant				
	Easy to use				
	Easy to maintain				
	Very high resistance to cracking				
	Will bridge existing cracks of up to 1mm				
Uses	 Will provide a standard low profile paint finish or medium build stipple finish ove substrates such as brick, block and textures, concrete, cement sheeting and A.A.C panels/blocks 				
	 Designed to be used where a superior level of crack resistance and a superior level of protection against water ingress is required 				
	 Provides excellent added durability and ensures a low maintenance coating when combined within a Revolution Paint System 				
	Can be used exterior				
Colour and Gloss	 Can be tinted to a wide range of colours. 				
	 For exterior applications it is recommended that light fastness of chosen colours be confirmed before ordering 				
Sheen Level	Low Sheen				
• • • • • • • • • • • • • • • • • • • •	nd 50% Relative Humidity				
/olume Solids	• 48-52%				
Γhinning	Up to 20% for cutting in & spraying				
	 Up to 20% for first coat when applying over acrylic texture and render 				
Coverage Rate	 Based on smooth substrate: 11.0 - 13.0m²/ltr/coat. 				
ilm Build	Dry film build: 55-65microns per coat				
	Wet film build: 120-150 microns per coat				
	• 2- 4 hours				
Orying Time	2 h				
. •	• 2 hours				
Γouch Dry	2 noursDry to Recoat				
Touch Dry Dry to Recoat					
Drying Time Touch Dry Dry to Recoat Elongation Rate Crack Bridging	Dry to Recoat				
Touch Dry Dry to Recoat Elongation Rate	Dry to Recoat700 % (ASTM D-412)				

Address: 17 Street No. 49, Quarter 2, Tan Phong Ward, District 7, Ho Chi Minh City, Vietnam Factory Address: Lot Vb.07b-08a, Road No.17, in the IP of Tan Thuan Export Processing Zone, Tan Thuan Dong Ward, D7, Ho Chi Minh City.
